***Allowable Subject Matter***

1. Claims 1-32 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose three distinct layers within an electronic document, the first layer being a validity layer, the second layer containing a visual representation of an electronic signature, and the third layer being an invalidity layer. Further, the validity layer initially displays a default validity graphic, until validity of the visual representation of the electronic signature is determined. Based upon this determination, a new validity graphic or an invalidity graphic is displayed in the respective layer.
